

Main aim: To show the students the amazing grace of god.

Defining moment: Let the students go home to god (compared to the parable of the lost son)

Supplies: Projector, Laptop with power point and music, sand

- 1. Attention:** Watch the video of the lost son
(<https://www.youtube.com/watch?v=V96rkM5Gpn0>)
- 2. Application:** Show the student screenshots from the video and let the students think about how the lost son and the father could feel in the different situations of the story. Ask the students how they would react if they would be the father in the story and the son would come home. Show them through this the amazing grace of the father. Tell the students that the story is a parable from the bible and that the father represent god and the son you. Tell them that they always can go home to god if they want, no matter they've done because god has grace for them.
- 3. Appeal:** Tell the students if they want to go home to god, they have to apologize for the bad things they've done. Let the students write in sand what they've done wrong and what they want apologizing for, after this they can wipe it away as a symbol that god has forgiven them.
